Excerpt from Mental Pathology in Its Relation to Normal Psychology: Lectures Delivered in the University of Leipzig The original title of this book, fully translated, runs as follows: Lectures on Mental Pathology in its significance for Normal Psychology, together with the Psychological Fundamentals of the Theory of Knowledge. Several years ago I heard Dr. Stoning deliver these lectures at Leipzig; and when I came to teach psychology, and found myself hampered by the lack of any English work on mental pathology to which I might refer my students without embogging them in a morass of clinical details, it occurred to me that they might find such a translation as this useful. The practical test of its usefulness I must, as it happens, leave to others, to whom I apologize for the roughness of the language and for the many Teutonisms which still remain unexcised. I believe the meaning to be accurately, though not always literally, rendered; were the translation more literal, it would be too bald and full of repetitions to suit English ears. As for the substance, to criticize his original is not a translator's province. I do not agree with all of Dr. Storring's conclusions, but he seems to me to offer the student a judicious selection of cases and, as a rule, to exercise a cautiousness in interpretation that may serve as a wholesome corrective of the extravagances characteristic of much recent amateur work on abnormal mentality. My thanks are due to several friends for assistance; more especially to Dr. Storring himself, and to Dr. W. J. Dodds, Inspector of Asylums in Cape Colony. Whilst keeping the author's bibliography at the end...
