

## Blue Revolution: Integrated Land and Water Resources Management b.

By Calder, Ian R.

EarthScan, UK, 2005. Softcover. Book Condition: New. First Edition. Available Now. Book Description: 'Blue Revolution upturns some environmental applecarts - not for the hell of it, but so we can manage our environment better.' Fred Pearce, New Scientist This updated and revised edition of The Blue Revolution provides further evidence of the need to integrate land management decision-making into the process of integrated water resources management. It presents the key issues involved in finding the balance between the competing demands for land and water: for food and other forms of economic production, for sustaining livelihoods, and for conservation, amenity, recreation and the requirements of the environment. It also advocates the means and methodologies for addressing them. A new chapter, 'Policies, Power and Perversity,' describes the perverse outcomes that can result from present, often myth-based, land and water policies which do not consider these land and water interactions. New research and case studies involving ILWRM concepts are presented for the Panama Canal catchments and in relation to afforestation proposals for the UK Midlands. : Review: "Indispensable to policy-makers, researchers and students of geography, biology and environmental sciences' Appropriate Technology; 'A very useful text which can be used successively at ever deeper...
